ABOUT THE COLLEGE & DEPARTMENT

PES Institute of Technology and Management established in the year 2007 has grown from strength to strength within a very short span of time to provide world class technical and scientific education for developing a professional outlook in every walk of life. The institute is striving for excellence through industrial-academic participation, consultancy and research. The qualified, competent and experienced faculties have backed the ultramodern structure of PESITM located in outskirts of Shivamogga. As an integrated campus PESITM presently offers Engineering programs in Computer Science, Electronics & Communication, Mechanical, Electrical & Electronics, Information Science, Civil Engg.; PG program in MBA and Institution has NINE research centers recognized by VTU. More than 2000 students are studying in these streams in the session 2018-19.

The Department of Mechanical Engineering was established in the year 2010 with the vision of attracting, rewarding and retaining outstanding faculty and staff who will ever provide an educational experience that prepares students for successful careers in Mechanical Engineering professions. The Department is housed with state-of-the art laboratories and research facilities striving to encourage research and development activities.

OBJECTIVES OF THE PROGRAMME

Aims of the conference is to bring leading academic scientists, researchers and industrialists together to exchange and share their experiences on all the aspects of Materials Science, processing and characterization. Processing and Characterization of materials has become more relevant with the advancement of technology and need of high quality materials for critical applications. Presently many of the research scholars pursuing their PhD in the areas such as MMC, PMC, Nano composites and Natural composites etc.

CONFERENCE THEME

Topics of interest include all aspects of Materials Processing and Characterization, but not limited to:

- Metal Matrix Composites,
- Ceramic Matrix Composites,
- Polymer Matrix Composites
- Nonmaterial,
- Smart Materials,
- Natural Composites,
- Thermal Integrated Materials

- MEMS,
- Material Processing,
- Properties and Characterization of Materials.
- Advanced Materials Processing

WHO CAN PARTICIPATE....?

Academicians from Engineering Colleges, Universities and Research Institutions, Research Scholars, Industrialists and Professionals in the Mechanical Engineering and related field are eligible to attend this conference

CALL FOR PAPERS

The authors are requested to send full length paper of their original work with author details, as MS Word document to Email ID - ncmpc2019@pestrust.edu.in
