Dear Professor,

As I said, I feel it is an honour to address 100+ Faculty Members who are the embodiment of God (ಗುರು ದೇವೋಭವ). You have very great organization skills, so I agreed to take a two days session.

Testing the webinar link one day before the actual session to check audio/video/tech setup is really good as it will stop all last minutes inconveniences.

I really appreciate your effort in sending a Letter of gratitude as I have delivered 100+ talks in institutions and nobody sent me such a letter.

Sessions are started on schedule and all the communications are clear and unambiguous.

I enjoyed the session delivery. I wish you all the best for your future endeavours.

Thanks and Regards

Manuel

PRESS RELEASE

**Five Day National Level Online Faculty Development Program on
"Innovative Research Trends in Information Technology"**

Organized by

Department of Computer Science,
PES Institute of Advanced Management Studies, Shivamogga

The main objective of organizing this Faculty Development program was to enrich research activities to meet the International standards and innovate new products. The current trend has thrown multiple challenges especially to the teaching fraternity in the education sector and amidst all these uncertainties and challenges and they are putting every effort to cope-up with the situation. To address current challenges and to enhance their skill sets this Five Day National Level Online FDP on **Innovative Research Trends in Information Technology** was designed and hosted by Department of Computer Science from **17th June to 20th June 2020 and 22nd June 2020** with the extended support from the management. PES organizes Faculty Development Programs every year to enhance their functional expertise and research capabilities.

The FDP began with Welcome note by Dr. K. Sailatha, Principal of the college and Inaugural note was delivered by Dr. Jagadeesha S. N., Head, Computer Science & Engineering, PESITM, Shivamogga.

Day one session was on the topic, **"Modern Tools & Technological Assistance for Effective Research"** which was delivered by **Dr. G. K. D. Prasanna Venkatesan, Dean – Faculty of Engineering, Karpagam Academy of Higher Education** on 17th June 2020. The session focused on research methodology and research tools. The speaker dealt in depth with the research tools that are currently being applied, difficulties faced by researcher to use these tools and how these difficulties can be overcome. He also had given an overview of how researchers can incorporate tools and technology to meet the international standards. The participants thoroughly enjoyed and actively involved in the Q & A session.

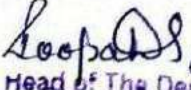

Day two & three sessions were on the topics, "Architecting Digital Transformation Journey" & "Autonomics: The New Era in IT Automation", respectively, delivered by Mr. Manuel M., Lead Architect, Scania CV AB, Sweden on 18th & 19th June 2020. The speaker started by briefing on the topic and providing insights of how Business Intelligence (BI) Data Architect works closely with information technology and business leaders to define, develop and implement the data architecture for enterprise data which plays a vital role in incorporating optimistic Business Intelligence. He shared his real experience of how challenges were faced and problems were resolved during his career growth as an Architect. On the third day, the speaker focused on Autonomics the Next Era in Digital Transformation and highlighted how currently financial companies are shifting to Anti-cloud storage technology to secure the valuable data. He also gave insights about opportunities in research and shared his experience at Infosys campus as a researcher. The program ended with Q & A session. The participants thoroughly enjoyed the session and got real time inputs from the speaker.

Day four session was on the topic, "Research & Technical Opportunities - AWS Cloud Services", was delivered by Mr. Javad Shareef M. A., Technical Manager, Standard Chartered Global services, Bangalore on 20th June 2020. The session focused on Cloud Computing and Amazon web services. The speaker explained about the AWS citing various use cases. The session was very informative as research opportunities were also highlighted and interactive one and the participants got benefitted as it was interactive with the inputs provided by the speaker on various Amazon Web Services.

Day five session was on the topic "Artificial Intelligence in Big Data", delivered by Dr. Usha Divakarla, Associate Professor, Department of Computer Science & Engineering, St. Joseph Engineering College, Mangaluru on 22nd June 2020. The session started with the introduction of Artificial Intelligence which leads to proliferation of Machine Learning, types & techniques of Machine Learning and she also gave insights of economic impact of AI and Big data. The speaker made all the participants to involve into the session interactively by conducting quiz.

The positive side of this lockdown period, the new form of connecting people through online has blurred the boundaries, and got the information and people closer. Because of this, a total of 165 participants from different states of the country participated with lot of energy and enthusiasm and made this program successful and meaningful.

Mrs. Roopa D. S., HOD of Computer Science Department and all faculty members were actively involved in organizing this FDP.
