Hemoglobin and Blood Group Checkup for Girls Students-20 February 2015

It has become fashionable for girls to remain slim and maintain a zero size figure. As a result of this, they consume less food and added to this the increase in consumption of junk food has once again created negative impact on girls. This in turn has created health issues for girls in the form of low HB level, anemia, nutritional deficiency, lack of sleep, lack of appetite, lack of concentration etc., Therefore a blood checkup for girl students and women faculty was organized on 20 February 2015 under sexual harassment redressal cell. Doctors from Maccgan Hospital visited the college to check-up the Students.
