## Digi-Locker

National science day is observed on 28<sup>th</sup> of february every year to celebrate to commemorate discovery of the "Raman effect" which led to Indian scientist C.V. Raman.

## Digitalization

Digitalization India is a campaign launched by the government of India to ensure that government services are made available to citizens electronically by improving online infrastructure and by increasing internet connectivity.

(a) making the country digitally empowered in the field of technology.

"I dream of digital India where knowledge is strength and empowers the people". says Honorable P.M. Modi.

Digi Locker is a platform for issuance and verification of documents and certificates in a digital format & thereby

## Topic : Digital Document Wallet (Digilocker)

As a part of Narendra Modi-led Government's Digital India Initiative, Digilocker came as yet another surprise.

Digilocker is a "Digital Locker" service operated by the Government that enables Indian citizens to store official and other important documents on the cloud. The service was launched in February 2015 by the Department of Electronics & Information Technology (DEITY), under the Ministry of Communications & IT.

To eliminate the use of physical documents and work towards paperless

government, Digilocker was created as a platform to provide a secured personal online storage space to save your document for issuance and verification of documents in a digital way. Indian citizens who sign up for Digilocker account get dedicated cloud storage space of 1GB which is linked to their Aadhaar (UIDAI) number. The service is open for Aadhaar card holders only. The online space can be used to store documents like mark sheets, Pan cards, Passports, GI Certificates, Voter-ID cards, property papers, those related to investments like mutual funds, shares, insurances, reports, tax papers, birth or marriage
