Effect of Quality on Productivity in Manufacturing Industries

Low productivity of workers is the most significant factor behind delivery slippages in manufacturing industries. Since manufacturing is a laborer predominant industrial sector low productivity also affect total cost. In today's competitive environment the mere success and survival of any enterprise whether it is a small scale unit or large scale enterprise depends upon the achievement and maintenance of a satisfactory level of quality, productivity, and at the same time at reasonable price with the optimum use of the all the factors of production, not just one of them.

Mr. Sohankumar R.N., Co-founder, Ficom Engineering Pvt. Ltd., Bangalore, said on the occasion of guest talk on Effect of Quality on Productivity in Manufacturing Industries organized by Department of Commerce and Management, PESIAMS, Shivamogga on 15.12.2017. He concluded that an enterprise is productively efficient when it is producing its product or service at the lowest unit cost that it can.

The enlightening session was started with the prayer song by the final year B. Com students and inaugurated by the dignitaries. The Coordinator, PG Department of Commerce & Management started the session with a welcome note. Mr. Sathish V, Asst. Professor, Dept. of Commerce and Management proposed vote of thanks at the end of the program. Mr. Nagaraja S R, Principal, PESIAMS and staff members were present during the program.
