Teaching Learning Process

The Teaching–Learning Process at PES Institute of Technology and Management (PESITM) is systematic, outcome-oriented, and aligned with the guidelines of the Visvesvaraya Technological University (VTU). The process begins with directions from the University and College CoE, followed by subject allotment and time-table formulation at the department level. Faculty members prepare and update course files containing lesson plans, course outcomes, CO–PO mapping, assessment methods, and learning materials.

Teaching is carried out as per the academic plan using a blend of traditional and ICT-enabled methodologies such as PowerPoint presentations, video lectures, and experiential learning. Continuous Internal Evaluation (CIE) is conducted through assignments, quizzes, tests, and seminars to assess student performance throughout the semester.

Course progress monitoring ensures that syllabus coverage and quality of instruction are maintained. Students are categorized as advanced or slow learners based on performance, and appropriate remedial or enrichment measures are taken. Feedback from students and faculty is analyzed to implement corrective and preventive actions for continuous improvement.

At the end of the semester, university examinations are conducted, and result analysis is performed to evaluate outcome attainment. The final attainment levels are updated in the course files, completing the continuous Teaching–Learning and Improvement Cycle.

This systematic approach ensures effective curriculum delivery, continuous quality enhancement, and attainment of Program Outcomes (POs) as envisioned by Outcome-Based Education (OBE).
