## OUR VISION

“To emerge as a center of excellence in the field of Mechanical Engineering Education, Research and Entrepreneurship”.

### ACTIVITIES HELD IN THE DEPARTMENT

**Karthik G. Walvekar (4PM16ME032)** of V Sem (A Sec) had participated and won Gold medal and 15,000/- cash prize in inter state **wristling tournament held at Jamakhandi**.

**Mr. Vasanthkumar S, Mr. Krishna Naik S. D., Ms. Swathi P. and Ms. Hemavathi M. of VII semester** has presented a paper on Experimental performance analysis of conventional gasoline vehicle blended with hydrogen gas”, in **PLASMA – 2018** a national level technical symposium held at JNNCE, Shivamogga on November 12<sup>th</sup> 2018.

**Ms. Apeksha H. N. (4PM16ME008), Ms. Chandana R (4PM16ME016) and Ms. Shreedevi B. J.** of Mechanical Department have actively participated in the 2 – days **National Women Entrepreneurship Conclave in Waste Management – WeCon 2018** held at Bengaluru on 3<sup>rd</sup> and 4<sup>th</sup> September 2018.

**Suhas G. Bharadwaj (4PM16ME097)** of 5<sup>th</sup> Semester, (B Sec.) has participated in District level of “Speak for India – Karnataka Edition - 2018” a state level inter collegiate debate competition held at Sahyadri college Shivamogga.

“GO-KART” club was inaugurated on **11-10-2018** to bring out the hidden talents in the department involving 2<sup>nd</sup> and 3<sup>rd</sup> year student.

As a part of Mechanical Engineering **Forum inauguration**, a talk on “**Motivation and Preparation of Gate-2019**” was arranged on 11-10-2018. **Mr. Sunil M. of “DEENABANDU TRUST”**, Chamaraja Nagar was resource person.

On 28<sup>th</sup> September 2018, an awareness program under the theme “**Consumption of JUNK FOOD**” to the interested students of mechanical engineering. Poster making and Collage competitions were the two activities conducted on the same topic as mentioned above. And **Mr. Nithish S. H. (4PM16ME058) and Darshan K. G. (4PM16ME019)** had won I and II places in collage making and **Mr. Nikhil Mirashi (4PM16ME054) and Ms. Sahana Nayak (4PM16ME085)** had bagged I & II places in Poster making.

## OUR MISSION

M1 – Creating a platform for effective and continuous learning by offering a strong technical knowledge and skills.

M2 – To motivate the students in involving academic and research activities for their career excellence and being responsible global citizens.

M3 – To include social, ethical and entrepreneurial values for the professional accomplishments.

### ACTIVITIES HELD IN THE DEPARTMENT

Mr. Lohit and Mr. Imad Ahamed of VII sem had participated in "Line follower" competition held at MCE, Hassan and JNNCE, Shivamogga, also secured with 1<sup>st</sup> and 2<sup>nd</sup> places respectively.

"Hands on tools on foundry and castings" a technical session for the III "A" and "B" section students. A demonstration on the molten wax pouring into the mould was done by Mr. Ashok R. Banagar, Mr. Vinod V. Rampur, Mr. Ganesh U. L. and Mr. Harish G. V. of mechanical engineering department and details of the casting was also explained to the students.

Once engineers at one of major aerospace company were testing the effects of bird strikes on the wind shield on various jets and airliners.

So to stimulate the effect of a bird striking a traveling plane at high speed engineers decided to make a powerful gun with which they could fire dead chicken (from freezer) at the wind shields.

After some test engineers declared that the test was very successful and the stimulation they used with gun and dead chicken worked very effectively.

Many articles and projects were published related to the suitability of wind shields and test done to approve that windshields were now suitable for planes.

At the same time in other part of world some other scientists were trying to assess same thing but on windshields of very new high train speeds.

These train test engineers had heard about the pioneering test developed by aerospace team, so they approached them and asked proper specifications of the test and way to conduct that test and the gun and dead bird.

Aerospace test engineers were happy to provide with all the details related to test done on wind shield.

Now train engineers were all set to build their own stimulation of bird striking high speed train but when tests were done results were shocking.

Wind shields that were supposed to be of high resistance to bird strike were smashed into pieces. In fact every single windshield they tired for testing was shattered along with the test booth itself.

Train engineers were horrified and concerned about the new high speed train safety and technology so they went to aerospace engineer with long report of failure of test and asked for advice and suggestions.

After reading the report a brief reply was sent from aerospace company test engineers and that was...

You need to defrost the chicken first...

Moral: Sometimes we work hard and focus on important thing but forget to notice small things that we over look because of pressure and work. So we need to sit and think for little and we can find solution.
