b) 2 Days Faculty Development Program On ‘Emerging Exponential Technology’ _ 27th & 28th Jan 2022.

Emerging technology is a term that is usually used to describe a new technology, but it may also refer to how present technology is evolving. It refers to technologies that are now developing or will be available within the next 5-10 years, and it is usually reserved for technologies that are creating or are predicted to have significant societal or economic implications. Technical evolution is a theory that outlines how society has changed dramatically as a result of technical advancement.

Since technology has so many intangible benefits in the workplace, MBA schools must guarantee that their students have a thorough knowledge of it. It also means that students will be far more prepared to meet the needs of future employers and recruiters. Considering this VTU, Belagavi has introduced a new subject titled ‘Emerging Exponential Technology’ for 3rd semester MBA. This subjects covers major futuristic technologies like Data Science, AI, IOT, AR&VR, Block chain, 3D Printing etc. It is imperative on the part of the any MBA Department to augment classroom learning for this subject with adequate practical exposure. It is critical for any faculty handling this subject to get desired exposure pertaining to emerging technologies. Which was conducted on 27th and 28th Jan 2022. About 120 students from 1st and 3rd semester attended along with 20 Engineering and MBA Faculty took 2 Days Faculty Development Program On ‘Emerging Exponential Technology’.

09. Educational Revolutionary at Dept of MBA. PESITM

The Department of MBA at PESITM is constantly looking for new approaches to enhance its brand image by instilling the best practical management practices, moving forward positively, and making it strong enough for other management institutions to understand that anything is possible with the right SPIRIT .Department of MBA has already solidified its position in the Malanad region, and in 2022, things have been given the biggest boost to improve things once reputation and Faculty along with 2nd Year MBA students have accomplished the seemingly impossible by sharing 3 BIG News and that we can motivate others to follow us.

1. Patents Published

After 11 months of extensive preparation and hard work, from October 2021 to June 2022 to have students’ ideas published with the help of DM Arvind Mallik, Assistant Professor, and 16 students who believed in his vision, two teams of 4th semester MBA students who successfully applied for and had their two novel ideas been published by the Indian Patent Office on 10.6.2022.

Team-1

- Patent Published Title- Eco-Friendly Sustainable Areca Matchstick to combat Climate Warming
- Name of Inventors (Students Names)- M.Suhana Koshler, M.Pooja, Ashwini, BK
- Sangamesh, Dikistha Mesta, K.Vedamurthy, K.Vedamurthy, Mahanathesh Gaddi, and Rahul
- Rajeev.
- Patent Sector- Agriculture
- Patent Domain- Bio-Technology
- Patent Primary Product- Arecanut

Team-2

- Patent Published Title- A Two Wheeler Vehicle with a Solar Panel Integrated Backrest Seating arrangement
- Name of the Inventors (Students names) - C. Yashodha, CT Sindhu, G L Ananya, Raju Baliger, Abhishek S, K.Kavitha, BC Sahana, and KE Basil
- Patent Sector- Automobile
- Patent Domain- Mechanical Engineering

Even though Areca matchstick is a novel concept, we intend to take the exam and obtain a patent in the coming months. According to D M Arvind Mallik, this is the first time the Indian Patent Office has recognized the ideas of 16 MBA students in the history of any management institution in India or the world. In one shot, the Government of India and, if my suspicions are correct, the Department of MBA. PESITM will establish the benchmark for the best educational institutions in Karnataka and India.
